THE ONE STOP HOBBY SHOP

mpc®...THE ONE STOP HOBBY SHOP

Last, year, MPC established itself as the Model EVERYTHING Company...the ONE STOP for any model kit need.

For 1983, the MPC line-up is even more exciting, and more viable for the market place, with a wide range of new introductions across the line. We are committed to help rebuild the model kit business with a combination of product and promotion that cannot be matched.

In product, MPC still delivers the extra value with more parts, more options, and more details. What this means to the modeler is one thing...he gets more SATISFACTION out of building an MPC kit. Whether he is a beginner building an It's A Snap™ Chromie, a car fan building a Street Machine, a military modeler building a Warplane, or an adult building one of the classics from our Master Piece Collection, he gets more modeling for his money with MPC.

MPC also adds the excitement in product that can only be generated with top licenses, and MPC's four television properties are the strongest from that medium. Of course, the third part of the Star Wars™ saga explodes onto the big screen in '83, and MPC will again be there with the biggest new items of the year.

A full line-up of support programs will help assure that MPC is the "Number 1" source for model kits this year. Point-of-sale material will add excitement to the kit department throughout the year. The largest media budget in the kit industry will reach out to every modeler. And MPC's exclusive GOLDEN OPPORTUNITY™ Promotion will keep them coming back for MPC kits.

Where is your ONE Stop for all model kit needs in 1983? MPC...of course.

The best models come from the best kits...MPC.
